

AHMED KHALED ELSAYED

FRONT-END DEVELOPER (ANGULAR)

Alexandria, Egypt | ak812554@gmail.com | +20 1027694583 | LinkedIn | Portfolio | GitHub

PROFESSIONAL SUMMARY

Results-driven Front-End Developer with 4+ years of experience specializing in Angular applications and enterprise-scale booking systems. Experienced in developing travel platforms, flight reservation systems, and B2B/BTC back-office solutions. Skilled in building scalable, responsive, and multilingual applications with strong focus on performance, reusable architecture, clean UI/UX, and RESTful API integration.

AREA OF EXPERTISE

Languages & Markup	HTML5, CSS3, SASS, JavaScript, TypeScript
Frameworks & Libraries	Angular (2+), React.js, Tailwind CSS, Bootstrap 5, jQuery
API Integration	RESTful APIs, JSON, Axios / Fetch
Version Control & Tools	Git, GitHub Flow, GitLab, Jira, Figma, Zeplin
DevOps & Deployment	Docker, Kubernetes, GitLab CI/CD
Testing & Quality	ESLint, Prettier, Jest, React Testing Library

PROFESSIONAL EXPERIENCE

Front-End Angular Developer - Techefficient

Oct 2023 - Present | Alexandria, Egypt

- Developing and maintaining enterprise-scale travel and booking platforms using Angular and TypeScript.
- Specialized in Flight Booking modules including search, booking flows, filters, and itinerary management.
- Worked on B2B and BTC back-office systems for travel operations and reservation management.
- Contributed to travel domains including Flights, Hotels, Transportation, and Sports Ticket booking.
- Built reusable Angular components and optimized UI performance across complex booking systems.
- Developed multilingual responsive interfaces supporting both RTL and LTR layouts.
- Clients & Projects: Wyanaa, Alkhamess, Bookto.

Front-End Developer - Ultimate Solution

Mar 2023 - Oct 2023 | Egypt

- Architected and maintained a SaaS ERP system using micro-frontend architecture.
- Integrated Angular front-end applications with .NET microservices.
- Built and deployed containers using Docker and Kubernetes.
- Developed feature-rich interfaces including Purchase Invoice, Debit Note, Driver Data, and Closing Period modules.
- Created reusable UI components to improve consistency and development speed.

Front-End Developer - Tawajood

Dec 2021 - Feb 2022 | Egypt

- Converted Figma designs into responsive websites and landing pages using HTML5, CSS3, SASS, and Bootstrap 5.
- Implemented login, booking, and review flows to improve user engagement.
- Optimized performance and ensured cross-device compatibility.

KEY PROJECTS

Travel Booking Platforms - Developed scalable travel and booking systems focused on Flight Booking, Hotel Reservations, Transportation Services, and Sports Ticket booking.

Flight Booking Module - Worked extensively on flight search, booking workflows, filtering systems, and itinerary management using Angular.

B2B / BTC Backoffice Systems - Built internal travel management systems for handling bookings, reservations, and operational workflows.

Ultimate ERP System - Built scalable ERP applications using Angular micro-frontends integrated with .NET microservices.

CI/CD Pipeline Automation - Implemented GitLab CI/CD pipelines with Docker and Kubernetes deployment workflows.

CERTIFICATIONS & TRAINING

- Angular Developer - Route Academy (Jul 2022)
- React Developer - ITRAX Academy (Nov 2021)
- Web Development Challenger Track - Egypt FWD (Aug 2021)
- Front-End Web Development - HSOUB Academy (Jul 2020)

LANGUAGES

Arabic - Native

English - Advanced
